Portfolio: https://www.zachobba.com.au/

I'm an innovative web developer experienced in crafting responsive, user-friendly web applications, specializing in React frameworks. Passionate about leveraging technology to create impactful solutions, particularly for non-profit organizations. Adept at designing intuitive interfaces and optimizing performance to enhance user experience.

My background in retail and management has honed problem-solving, collaboration, and project management skills, ensuring the seamless execution of technical projects from concept to completion.

Technical Skills

Web Development: React.js, JavaScript, HTML, CSS, Angular, Shopify
Version Control: Git, GitHub
Tools and Platforms: ServiceNow, AWS, Vercel
Databases: MySQL, NoSQL (MongoDB)
Additional Skills: Agile development methodologies, CI/CD

Experience

Volunteer Web Developer | May 2023 – present
Code.Sydney
Team collaboration:
- Collaborated with team members to design and build responsive, accessible websites tailored to non-profit and charity needs.

React.js frameworks:
- Developed interactive web applications using React.js and Next.js to enhance user experience and engagement.

Version control:
- Maintained code repositories using GitHub, ensuring version control and collaborative development.

Troubleshooting:
- Troubleshot and resolved technical issues, improving website performance and usability.

API integration:
- Integrated APIs and third-party tools to enhance website functionality.

ServiceNow Developer | Oct 2022 – Oct 2024
The Star Casino
ServiceNow instance administration:
- Customized forms and workflows to meet departmental needs and improve user efficiency.

End-user support:
- Assisted users with ServiceNow tools to create troubleshooting and provide training to improve system usage.

Workflow optimisation:
- Streamlined workflows to increase operational efficiency and meet evolving business needs.

Custom script solutions:
- Developed custom scripts to add extra features and make ServiceNow work better for users.

Technical documentation:
- Kept detailed records of system changes and customizations, making sure everything was clear and up-to-date.

Manager | Mar 2014 – May 2022
Blackheath Vegie Patch
Team Management:
- Led a team of 4-6 employees, fostering a positive work environment and ensuring high team performance.

Inventory Management:
- Maintained stock levels and organized inventory, reducing waste and ensuring smooth operations.

Cash Handling:
- Managed financial transactions, ensuring accuracy and efficiency in processing payments.

Food Preparation:
- Prepared high-quality takeaway items, including sandwiches, smoothies, and salads.

Dispatch and Delivery Coordination:
- Managed pick-up and delivery orders, ensuring they were handled and delivered on time**.**

Projects

Prisoners Aid (ACT) Website revamp: I assisted with updating stylistic aspects of the site and uploading content to the site.
Built using Next.js, JavaScript and Bootstrap CSS
[Prisoners Aid ACT](#)

Mayfield Vineyard Supplier map: Created a custom supplier Google map overlay for Mayfield Vineyard Orange.
Built using JavaScript, CSS and Google Maps JavaScript API

[Mayfield Vineyard Roadmap](#)
